A fully enclosed bottom contains a dishwasher safe filter for easy cleaning and dual 40-watt incandescent lighting for excellent cooktop illumination.

The ducted/non-ducted telescopic flue accommodates ceilings from 8 to 9 feet, while an extension flue for higher ceilings is also available for ducted applications. (Remember to install the hood so that the bottom of the unit is between 24" and 30" above the cooking surface.)

The Rangemaster by Broan-NuTone RM50000 is available in 30" and 36" widths, includes a 6" round duct connector with built-in back-draft damper and a non-ducted kit for indoor re-circulation of exhaust, and two 40-watt incandescent lamps. Available in Stainless Steel.

RM51000

The Rangemaster by Broan-NuTone RM51000 is hand rolled with graceful curves in a sleek design while being engineered to meet the requirements of today's higher styled conventional cooking appliances and kitchens.

The 370 CFM centrifugal blower is combined with a multi-speed, slide control to provide quiet and effective performance.

Halogen lighting compliments the beauty of a fully enclosed bottom that also contains dishwasher safe, aluminum filters.

The ducted/non-ducted telescopic flue accommodates ceilings from 8 to 9 feet, while an extension flue for higher ceilings is also available for ducted applications. A non-ducted kit for indoor re-circulation can be purchased separately. (Remember to install the hood so that the bottom of the unit is between 24" and 30" above the cooking surface.)

The Rangemaster by Broan-NuTone RM51000 is available in a 90 cm width and includes a 6" round duct connector with built-in back-draft damper and two 20-watt halogen lamps. Available in Stainless Steel.

RM52000

The Rangemaster by Broan-NuTone RM52000 wall mounted chimney hood combines graceful curves and traditional European style into a sleek new design engineered to meet the requirements of today's higher styled conventional cooking appliances and kitchens.

The 370 CFM centrifugal blower is combined with a multi-speed, slide control to provide quiet and effective performance.

Halogen lighting compliments the beauty of a fully enclosed bottom that also contains dishwasher safe, aluminum filters.

The ducted/non-ducted telescopic flue accommodates ceilings from 8 to 9 feet, while an extension flue for higher ceilings is also available for ducted applications. A non-ducted kit for indoor re-circulation can be purchased separately. (Remember to install the hood so that the bottom of the unit is between 24" and 30" above the cooking surface.)

The Rangemaster by Broan-NuTone RM52000 is available in 30", 36" and 42" widths and includes a 6" round duct connector with built-in back-draft damper and two 20-watt halogen lamps. Available in Stainless Steel.

RM65000

Stainless steel, glass, curved and angular surfaces are beautifully blended in this hand-crafted Rangemaster by Broan-NuTone RM65000 Chimney Hood, making it not only beautiful to look at, but through, when cooking.

The 450 CFM centrifugal blower is combined with a multi-speed, electronic push button control featuring stylish rounded buttons with individual speed indicators to provide quiet and effective performance.

It also features a 10-minute off-delay, a fully enclosed bottom with dishwasher safe, professional style filters and a control light to indicate its time to clean filters, and two-level halogen lighting for bright cooktop illumination and low nighttime setting.

The ducted telescopic flue accommodates ceilings from 8 to 9 feet, while an extension flue for higher ceilings is also available for ducted applications. (Remember to install the hood so that the bottom of the unit is between 24" and 30" above the cooking surface.)

The Rangemaster by Broan-NuTone RM65000 is available in a 90 cm width and includes a 6" round duct connector with built-in back-draft damper and two 20-watt halogen lamps. Available in Stainless Steel.

61000EX & 63000EX Exterior Blowers

Rangemaster by Broan-NuTone is introducing the ultimate in quiet operation and superior performance with the release of the Rangemaster by Broan-NuTone Ballista 61000EX and Provisa 63000EX range hoods with exterior blower models.

With a choice of four Exterior Blower Systems with either 600, 900, 1200 or 1500 CFM of exhaust, the Ballista 61000EX and Provisa 63000EX provides the optimum exhaust power while removing the sound of the motor that is creating the air movement to the exterior of the home and providing quiet operation inside.

Known for their classic stainless steel construction, the wall-mounted Ballista 61000EX and free-hanging island Provisa 63000EX are expanding their kitchen horizons with increases performance and yet quieter operation.

- more -

The Ballista 61000EX features a concealed three-speed slide control that adjusts to cooking conditions, two 20-watt halogen lights for full cooktop illumination, a telescopic flue that fits 8' to 9' ceilings and has an optional flue extension for up to 10' ceilings, and dishwasher safe grease filters.

This stainless steel wall-mounted hood is available in 90 cm and 48" widths.

The Provisa 63000EX features a concealed three-speed control, superior island lighting from four 20-watt halogen lights, a telescopic flue that fits 8' to 9' ceilings, and dishwasher safe grease filters.

This stainless steel island hood measures 70 cm x 100 cm.

Both come with an 8" round duct connector with a built-in back-draft damper and should be installed so that the bottom of the hood is 24" to 30" above the cooktop surface.

The Exterior Blower Systems that accommodate the Ballista 61000EX and Provisa 63000EX are the 331H (600 CFM), 332H (900 CFM), 335 (1200 CFM) and 336 (1500 CFM) and come with 10" round ducts.

The blowers feature a new, low profile design that fits unobtrusively with all home exterior styles and are constructed of durable, weather-resistant all aluminum material. A safety screen keeps small animals and debris from the blower and motor.

RMDD Downdraft

The Rangemaster by Broan-NuTone RMDD Downdraft System has been specifically designed to be compatible with most conventional and commercial style cooktops - combining sensational appearance with high performance features and rising over 9 ½" when activated.

The stainless steel, compact design installs directly behind the cooktop for an unobtrusive appearance, while its thin profile saves precious space under the cabinet.

Infinitely adjustable control is designed to provide convenient access to govern the blower speed for effective and quiet operation of the 500 CFM exhaust. External blower options are available to provide from 600 to 1500 CFM of exhaust.

An optional remote control will activate the downdraft from an alternative location.

Other features include the Heat Sentry that adjusts the speed of the blower to high in the case of excess heat and dishwasher safe filters with a brushed stainless appearance for a professional look.

The unique ducting capability of the Rangemaster by Broan-NuTone RMDD Downdraft System allows the internal or remote blower connection to be ducted to the left, right or downward. A 3 ¼" x 10" duct connector is included with the internal blower. A 3 ¼" x 14" duct connector is included with the external blower.

- more -

The Rangemaster by Broan-NuTone RMDD Downdraft System is available in Stainless Steel and in widths of 30", 36" and 48".

RMP1 Power Pack

The Rangemaster by Broan-NuTone Custom Power Pack RMP1 is designed to fit flush in the bottom of a cabinet or custom hood and provide 400 CFM of exhaust with a multi-speed control for quiet and effective performance. An exterior blower model (RMPE) provides from 600 to 1500 CFM of exhaust.

Halogen lighting from two lamps compliments the beauty of the fully enclosed bottom that also contains dishwasher safe filters.

Available in 70 cm width, the unit will fit cabinets and hoods from 30" to 42" wide and comes with a 6" round duct connector (8" round connector for external model) with a built-in back-draft damper. The unit can be made non-ducted for indoor re-circulation of exhaust with a separately sold charcoal filter kit. (Remember to install the power pack so that the bottom of the unit is between 24" and 30" above the cooking surface.)

Available in Stainless Steel.
